WHILE WAITING FOR THE FREIGHT

(To my wife.) At the lone and areary station

That lies dreaming on the prairie

As the sleepy sun goes down,

am sitting in the twilight

One by one, far up above me,

Little stars begin to glow:

As if bearing me a message

Writing you this little song-

Waiting, waiting, billy waiting

For the 'Freight' to come along.

Soft night winds are gently rising,

Whispering so sweet and low,

From the lips I knew of late-

And I think how many thousand

Fellow travelers on the road.

Like myself are sad and lonely-

Rearing manfully their loss

Toiling early, toiling late,

headed

While I'm walting for the "Freight."

While I'm waiting for the "Freight."

For the dim and distant shore,

And I'll frust the great Conductor,

For his train is never late,

While you're waiting for

Orchards in Good Condition-The April Meeting.

Wednesday, April 9, the day for the meeting of the Summit County Horticultural society was stormy and disagreeable, and the roads almost impassable. But notwithstanding these obstacles, nearly 79 members and friends took advantage of the street cars, and met at the pleasant home of Mrs. Belinda Bettes and son Maurice, for the April meeting.

After a bountiful dinner the meeting was called to order by President C. N. Gaylord, and the minutes read ind accepted.

> JOS. THOMAS. 239 Johnston st.

Many of our members urge the you receive with a 50c or more purplanting of wild flowers in our door chase. are have them blooming in our homes Grocer, long before they blossom in the

Mr. Crawford says there is no danger of our wild flowers being exterminated, as several European firms are advertising them for sale. Orchards are reported in good con-

dition, with prospects for good crops of pears, apples and sour cherries. Now is the time to trim apple trees, but this must be done with great care and judgment. If a tree is trimmed so that the sun shines on the trank, the bark will be scalded and the tre ruined. One member says that more experience he has in raising orchards, the less he favors trimming Vineyards are in good condition; the weather has not been severe enough to hurt them. Mr. C. E. Barnes, our authority on grapes, says that when the Brighton is planted, some other variety should be planted near it, or it will not be a success, Pruning should now be done. The proper time and the best methods of trimmings small fruits was discussed

at some length. Mr. S. Baldwin gave a very instructive talk on entomology and says there are three times when spraying must be done to be effectual: First, just as the buds begin to swell; second just before opening; third, just after the falling of the bloom.

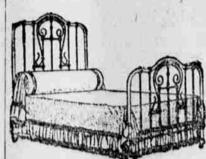

Several members advise road dust for cureulio. Mr. Foster, our essayist, rend ery fine paper. A short discussion
